Harvest Permit Application

Landowner Preference

Landowners may be Wisconsin residents or non-residents. To qualify, you must personally own 50 or more acres in one tract within the management zone you select as your first choice to be eligible for landowner preference in that zone. The acres may be adjacent to one another to make up the 50 acre tract. You are not required to live on this tract. (Note: This does not mean that a different person may apply with landowner preference for each 50 acres within one ownership.)

Providing incorrect information and claiming landowner preference without meeting the legal qualifications is a violation of state law and is punishable by a penalty in excess of \$500 and a revocation of all hunting, fishing and trapping privileges for 3 years.

Transfer of Landowner Preference: Under the preference system you can apply for, or if a Wisconsin resident, may transfer your landowner preference. If the land is under joint ownership, only one of the owners may apply for or transfer landowner preference. Non-resident landowners cannot transfer preference

1. After reading the above description of a qualified landowner, do you meet the criteria and wish to claim landowner preference? *Required*

Printing – The system will print a paper receipt showing the customer did submit their application. There is no license document since this is just an application. Ask the customer to review the choices printed on the receipt to make sure they are correct. It is a good idea that they hang on to this receipt as proof of application.
